🌐 Portfolio

Technical Skills

Languages: Java, SQL, Python

Technologies: Machine Learning, REST APIs, Socket Programming

Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Jupyter Notebook

Experience

GTT Data Solutions Ltd.

Feb 2026 – Apr 2026

Machine Learning Intern

Pune, Maharashtra

- Gained hands-on experience in Machine Learning through practical tasks and projects.
- Applied theoretical ML concepts to real-world datasets and problem-solving scenarios.
- Participated in project-based learning activities and model development exercises.
- Collaborated with team members to analyze problems and propose data-driven solutions.
- Strengthened analytical thinking, teamwork, and technical problem-solving skills.

Projects

Java Intranet Chat Application with Whiteboard System

Java, Socket Programming, Swing/AWT

- Developed a real-time intranet chat application using Java client-server architecture.
- Implemented multi-user messaging and communication features using socket programming.
- Integrated a collaborative whiteboard system for real-time drawing and interaction.
- Applied object-oriented programming principles for scalable application development.
- Enhanced user collaboration through simultaneous chat and whiteboard functionality.

Campus Connect

Next.js, Express.js, PostgreSQL, Socket.IO, TypeScript

- Developed a campus networking platform connecting students and faculty members.
- Implemented secure authentication and user profile management.
- Enabled post sharing, interactions, and real-time communication features.
- Integrated backend APIs and PostgreSQL database for efficient data handling.
- Designed a responsive user interface to improve user engagement.

FlowerSense-AI: Intelligent Flower Classification and Recognition System

Python, Flask, TensorFlow, Keras, MobileNetV2

- Developed an AI-powered flower classification system capable of identifying 105 flower species from over 16,500 flower images.
- Trained a deep learning model using MobileNetV2 transfer learning architecture with TensorFlow and Keras.
- Built a Flask-based web application supporting image upload, webcam prediction, and batch image classification.
- Implemented REST APIs, analytics dashboard, prediction history tracking, and feedback collection features.

Education

Trinity Academy of Engineering, Pune

Expected May 2027

Master of Computer Applications (MCA) (CGPA: **8.45 / 10.00**)

Pune, Maharashtra

Panchvati College of Management, Nashik

2025

Bachelor of Business Administration (Computer Applications) (CGPA: **7.15 / 10.00**)

Nashik, Maharashtra

LVH College of Arts, Commerce and Science

HSC

Percentage: **60%**

Maharashtra

Madhyamik Vidyalaya, Untwadi CIDCO, Nashik

SSC

Percentage: **82.60%**

Maharashtra

Certifications

- College-Level German Language Certification (A1 Level)
- Machine Learning Internship Certification – GTT Data Solutions Ltd.
- Java Development Basics – Developed Java-based applications with emphasis on Object-Oriented Programming, Debugging, and Database Integration.

Achievements & Extracurricular Activities

- Member of the winning Tug of War team in an inter-campus competition.
- Winner of College-Level Chess Competition during BBA(CA).
- Active member of the National Service Scheme (NSS) during BBA(CA), participating in community service and social awareness activities.
